10.000 KNOTS CHANDELIER

\$22,550

DESCRIPTION

An intriguing dance of form and material, this striking empire chandelier is a modern take on an iconic piece of home decor. Introduced at Milan Design Week 2018, this chandelier is meticulously crafted of natural and painted iron, the two shade bands boasting striking sequin decorations in bronze and white with a lilac fabric trim. The iron-wrought large belcher chains, consisting of 10,000 knots, cascade down the chandelier in an eccentric black and light-pink gradient. Small spherical crystals accent the iron chains for a stunning color and textual contrast.
