BOX WITH LID

\$135

DESCRIPTION

This exquisite box with lid is a versatile piece of decor that was made entirely in transparent mouth-blown glass in the shape of a square. The lid features an opening at the top so that this box can be used to store small objects, with the intent of displaying them as well - thanks to its transparent body, but it can also be a unique vase. Ideal in any room of the house, this piece will complement any decor.
