356 CABINET

\$16,560

DESCRIPTION

This versatile cabinet is part of the 356 Collection inspired by the curves of iconic car doors. Designed by Pauline Deltour, it is crafted of metal with a champagne-colored case resting on four low legs and adorned with two eye-catching chromed mirror-finished doors bent on both hands to create handles. Visible hinges and slightly flared feet add to the charm of this piece, also available in all painted black matte, all painted metal champagne, or with the case in black matte and the doors in a chromed-mirror finish - please ask the Concierge for details.
