50S CHROMA J STYLE SIDEBOARD

\$6,120

DESCRIPTION

The design of this sideboard is directly inspired by classic '50s style. Made of prime Slavonian oak, the front panels are textured with horizontal lines in different shades. The panels slide open with a Grass guide system equipped with cushioned closures. The four tapered legs are splayed in a playful outward direction and the entire piece is treated with three coats of gloss for a natural finish. The convenient size and lightness of this sideboard makes it ideal for an entryway, living room, or private study in modern and contemporary homes.
