Ceramica Gatti 1928

800 DOLPHINS BOWL WITH PLATINUM

\$1,750

DESCRIPTION

This elegant bowl is made on a lathe and enameled in earthenware with delicate hand-painted platinum decorations. The outer part of the bowl is in platinum with a delicate feather design and the inside is in glossy white. The top is supported by the tails of three dolphins that are beautifully crafted with handmade platinum outlines. The striking enhancement of the texture and the metallic glare are obtained with an exclusive technique developed in the 1930s by Gatti specifically for the platinum and gold decorations applied by hand with a brush during a third firing (at 700Â°).
