Vittorio Martini

A3 PORTFOLIO IN BROWN REGENERATED NUBUCK LEATHER

\$95

DESCRIPTION

This stunning portfolio is an elegant addition to a desk and allows to travel with documents and notes in style. The cover is crafted of regenerated nubuck in a deep brown shade that was treated with a process that makes the leather water-repellent and gives it a soft touch, while also preserving its original color over time. This generous-sized case is ideal for A3 papers and comes with Vittorio Martini's iconic Matilunga, an extra tin colored pencil with a nickel polish that functions also as closure for the case.
