A3 PORTFOLIO IN BEIGE REGENERATED NUBUCK LEATHER

\$95

DESCRIPTION

Elegant and modern, this portfolio was crafted of regenerated nubuck with a delicate beige color. The leather was given a treatment that makes it water-resistant and protects its original color, while also giving it a soft touch. The case is ideal to store A3 paper or large sheets and will be a sophisticated addition to an office. It comes with iconic Matilunga, an extra-thin colored pencil designed by Vittorio Martini that has a nickel polish and can be also used as closure.
