ABSOLUTE CHANDELIER

\$6,690

DESCRIPTION

A modern reinterpretation of the traditional chandelier, the shapes and colors of this bold piece create unique lighting effects. The brown oversized drum lampshade is the main structure around which the piece evolves, with large orange glass spheres crafted with "baloton" and "rigadin" techniques, emerging from the inside. These decorative elements, of different sizes and hanging at different levels, reflect the light with warm tones and unexpected reflections. Customization available in sizes and colors.
