## ABSTRACT SET OF SIX PLATES #1

\$550

### DESCRIPTION

A dance of colors and forms, this charming plate will infuse a child-like charm into any tableware collection. The plate features an array of cartoon-like figures swirling around the contours of the plate: the whimsical figures are defined by their rectangular bodies, flat-top hats, and expressive physicality achieved by dynamic coloring and drawing styles. Blue splatters of paint dot the work as a delicate finishing touch. Changes in color, design, and hues are signs of an entirely handmade, one-of-a-kind crafting process. The motifs can be selected to create a personalized set of six plates.
