ACHILLE DARK SIDE TABLE

\$2,770

DESCRIPTION

This exclusive coffee table combines traditional and innovative materials with a design that pays tribute to the great Italian designer Achille Castiglioni. The eye-catching base is made of canaletto walnut and has a sculptural silhouette with a single tapered leg inserted in a diagonally cut globe. The round top is of FENIX NTM®, a nanotech material with a matte black finish that combines an elegant aesthetic with technological performance. A true work of art, this piece of high end craftsmanship will be best displayed in a monochromatic, contemporary living room.
