Officine di Murano 1295

ACQUARIO VRM VASE

\$1,915

DESCRIPTION

An underwater scene offered in an intimate perspective is the colorful, decorative focus of this vase. Meticulously handcrafted of polychrome Murano glass, the fish are previously crafted and then englobed in a hot mass of clear glass that gets consequently mouth-blown for an impeccable incorporation between the different elements - "sommerso" technique. It comes with its authenticity certificate.
