ACROPOLE CHAMPAGNE BUCKET

\$17,600

DESCRIPTION

Part of the Acropole collection, the simple yet elegant lines of this exquisite champagne bucket are inspired by Neoclassical art. The delicate urn shape is raised on a small flared base and both rim and handles are decorated with reeds reminiscent of Greek Doric columns. Timelessly elegant, this piece will be a priceless family heirloom that can withstand the test of time. (The champagne opener is sold separately.)
