ADAMO STOOL

\$2,495

DESCRIPTION

The unadorned design of this stool bestows its great versatility of use, making it perfect to be displayed in a wide variety of commercial and residential interiors. The wooden frame - 80% beech and 20% fir - includes the slender, tapered legs (60 cm high) made of wenge-colored beech sustaining the plush squared seat, which is padded with high-density polyurethane and polyester fiber. Prized brown nubuck leather covers the whole seat with rounded edges adding a precious detail to this seemingly simple design.
