ADRIANO DINING TABLE

\$9,360

DESCRIPTION

The exquisite combination of textures and finishes makes this table a true masterpiece that will stand out in classic and modern dining rooms alike. The wooden structure consists of an oval top, supported by a central truncated cone raised on a round base. Marked by aesthetic balance and striking visual allure, the top features a black scagliola decoration recalling gold-veined marble, whose glossy finish results from the addition of moonstone in the matrix. Both the base and top rim have a shimmering brass finish. The top can be customized in other sizes, ask the Concierge for availability.
