AEGIS COFFEE TABLE BY ZIAD ALONAIZY

\$20,250

DESCRIPTION

A piece of unparalleled craftsmanship, the Aegis Coffee Table is a remarkable design by Ziad Alonaizy perfect for creating a true statement centerpiece in modern or mid-century-inspired interior decors. Featuring a mocha brown marble top, the intriguing base is the leitmotif of the collection, inspired by the concepts of protection and shielding, as the Latin name indicates. Gold-plated wires are sewn by hand onto the blackened iron oval top and base, encased in two hourglass shapes by polished brass plates.
