AEGIS-M WALL MIRROR BY ZIAD ALONAIZY

\$5,450

DESCRIPTION

Entirely assembled and finished by hand, this remarkable wall-mounted mirror designed by Ziad Alonaizy is inspired by the idea of protection of the Greek mythology's aegis. The pink-tinted mirror is seemingly suspended inside a stainless steel frame with polished gold finish by means of gilded steel wires threaded in front and behind through lateral holes at different distances. A strong visual presence of impeccable quality, this mirror can be displayed both vertically and horizontally. The finish can be customized, ask the Concierge for details.
