AEGIS SQUARE SIDE TABLE BY ZIAD ALONAIZY

\$6,730

DESCRIPTION

Handcrafted using environmentally friendly processes, this Art Deco-inspired design from the Aegis Collection by British designer Ziad Alonaizy is characterized by a cage-like, architectural base that can be appreciated from all sides. The brown top in 100% recycled glass rests on a metal structure in matching finish, with a black nickel-plated stainless steel base composed of thin wires hand-sewn around the perimeter and cinched at the center by a plate in an hourglass shape.
