AGATHA 5-PIECE COFFEE TABLE #2

\$11,050

DESCRIPTION

Composed of five unique tabletops, this stunning coffee table of the Transparency Matters Collection is entirely crafted by hand using the casting technique. Marked by tones of purple and blue contrasted to vivid shades of orange, the tabletops are made through a special casting molding of three layers of resin, and rest on a geometric M-shape bronze structure. Also available in other colors upon request, this piece may feature slight differences in the shape of the tops, which are to be regarded not as flaws but rather a stylistic choice of the designer.
