ALBARELLO APOTHECARY JAR

\$505

DESCRIPTION

Reminiscent of the shape of the iconic apothecary "Albarello" vases, this piece is crafted by hand of ceramic and entirely hand adorned. The decor that graces its surface evokes the colors of a magnificent peacock, interpreted in a splendid Italian art-deco style with turquoise, blue, yellow, orange, and red accents. Because of the handmade quality of each step of production, sizes and colors can slightly vary from the ones in the photo. This unique container can be used in the living room, bathroom, or kitchen, or displayed as a striking decorative object in a modern or classic interior.
