## ALPI TABLE LAMP

\$1,300

### DESCRIPTION

This unique and exquisite lamp was created to be positioned specifically on a console table, making it a perfect surface to display this piece of functional art. The sphere is made of mouth-blown borosilicate glass, pierced by a brass straight element, part of a striking structure that can be adjusted thanks to the nickel ring. The brass is brushed with a wax coating to slow down the natural oxidation process, thus creating an alluring finish that ages gracefully over time. The light can be dimmed thanks to the Inline Touch Dimmer. The lightbulb is 24V LED with 6W (equivalent of a traditional 40W), 400 lumens, 2700K. Transformer included.

### DETAILS & DIMENSIONS

- Material: Brass, Glass, Aluminum, Nickel
- Dimensions (in): W 29.13 x D 11.81 x H 11.81
- Dimensions (cm): W 74 x D 30 x H 30
- Handmade In Italy
