ALTANA LARGE BLACK MARQUINA COFFEE TABLE BY IVAN COLOMINAS

\$9,520

DESCRIPTION

The chromatic intensity of black Marquina marble lends unrivaled sophistication to the simple and harmonious shape of this round coffee table. Inspired by the turret-like rooftop terraces typical of Renaissance abodes, its stately and welcoming silhouette consists of a round top tapering downwards to get incorporated in the compact, slightly flared base. This one-off design will elevate the look of any contemporary living space with its one-off aesthetic. Please note that marbles and stones are natural materials and they can differ also if coming from the same quarry or the same block. The product shown may differ from purchased items. Every piece is unique.
