## AM1N BY FRANCO ALBINI - TABLE LAMP

\$2,570

### DESCRIPTION

AM1N - Table lamp, rose gold tulip, pink glass diffuser. In the mid-60s, Franco Albini, together with Franca Helg, Antonio Piva, Marco Albini, designed the AM/AS series of lamps, whose main feature is the system of joints between the luminaires and structures and the possibility of combining different elements to create multiple configurations of use. Modularity, care for materials and shape control characterize this design project by the Italian master, which Nemo has been producing since 2008. In this exclusive edition for Cassina, the structure of the table lamp is in rose gold and the cupshaped shade is made of taupe glass. The light is diffused, adjustable in intensity thanks to the dimmer on the power cable.

### DETAILS & DIMENSIONS

- Material: Glass
- Dimensions (in): W 15.75 x D 15.75 x H 18.90
- Dimensions (cm): W 40 x D 40 x H 48
- Handmade In Italy
