AMANUENSE SECRETARY DESK BY ADOLFO NATALINI

\$18,320

DESCRIPTION

Part of a series of striking pieces designed by Adolfo Natalini, this secretary desk was entirely made in cherry wood with a dark finishing. The collapsible desk hides an ample shelved space, while the bottom consists of four storage or display areas resting on a plinth base. The uniqueness of this piece is in the two slender legs, which support the desk when opened, and connects with the rest of the structure with two exquisite bronze sculptures representing two hands holding on a stick.
