## AMARANTH AND PINK JEAN STACKABLE TABLES

\$5,710

### DESCRIPTION

These asymmetrical tables are part of a curated selection presented at Artemest' Living Objects Fuorisalone event during Milan Design Week 2019. Inspired by Dadaist artist Hans Arp's abstract compositions, these tables feature irregularly shaped wooden tops with a lacquered finish in a refined color combination, crimson for the lower table and pink for the top. Each supported by five double-cylinder brass legs, they can be stacked together as a captivating coffee table or displayed separately to add a visually alluring aesthetic and distinctive touch to a modern living room or office decor.
