AMORFO VASE BY ELIANA MARIA LORENA

\$660

DESCRIPTION

Inspired by the concept of beauty as "imperfect, impermanent, and incomplete" of the Japanese wabi sabi aesthetics, the Amorfo Collection of vases is characterized by eclectic shapes ("amorfo" in Italian means amorphous). This bulb-shaped vase is handcrafted of ceramic with a glossy white finish, the smooth surface accented with a design by Eliana Maria Lorena. Four sets of two lines, in light and royal blue, mark the circumference of the vase in a sinuous dance and wavy movement. The top features an irregular opening that evokes the organic forms found in nature.
