AMPHORA CRYSTAL VASE

\$2,220

DESCRIPTION

The silhouette of this splendid crystal vase was inspired by the Etruscan amphorae and reinterpreted in a modern style. The blown and beveled clear crystal exhibits a finely patterned motif with ridges and grooves both on the body and the flared neck. A pedestal foot and a cone-shaped lid complete this exquisite piece that celebrates craftsmanship and the innate beauty of the glass and will make a timeless centerpiece or mantel accent in any decor.
