\$145

---

## DESCRIPTION

A showcase of decorative artistry inspired by woods' flora and fauna, this porcelain dinner plate is part of the eloquently named An Ode To The Woods Collection, which also comprises other animal types. A garland of wildflowers and leaves handpainted in vibrant blotches of color intertwines with the portrait of a white-tailed deer, obtained from painstakingly thin brushstrokes reminding of a true pencil drawing. Oven and dishwasher-safe, it is a unique artisan piece.
