Caruzzo e Fabbro

ANFORA VASE GRAY AND BLUE

\$320

DESCRIPTION

Entirely handcrafted of half-refractory white fire clay and hand-painted with a glossy glaze through three firings at 980° C, this stunning amphora-shaped vase was designed by Mauro Fabbro. The design is both delicate and bold, featuring a dove gray and blue color combination, separated diagonally at the center to visually accentuate the sinuous silhouette. This exquisite piece can be arranged with other sculptural objects by the same designer on mantels, ledges, and tabletops.
