APOLLO SIDE TABLE IN BURNISHED METAL

\$8,140

DESCRIPTION

Named after the Greek god that carried the sun each morning to illuminate the earth, this stunning side table boasts a round top of Stelvio marble with a satin finish adorned with a round inlay in horn. The natural decorative patterns of these two natural materials create a one-of-a-kind decoration that is elegantly supported by the three legs of the burnished metal structure, joined at the base in an asymmetric shape. Exuding modern elegance, this piece can also have a Carrara or Cartagine top - please ask the Concierge for details and variations in pricing with these options.
