APPALABITO SCULPTURE

\$770

DESCRIPTION

The complex architectural structure of the prickly pear, where the fruits grow into its flat pads, suggested the creation of this iconic work, a modular coat hanger, in which fruits are the natural hooks. The color of the wood of the products is natural, not painted, and the surfaces are treated with natural oils. The products are sold in pairs but they can be purchased individually.

DETAILS & DIMENSIONS

- Material: Wood
- Dimensions (in): W 27.56 x D 4.33 x H 16.54
- Dimensions (cm): W 70 x D 11 x H 42
- Handmade In Italy
