AQUARIUS EARRINGS

\$240

DESCRIPTION

Aquarius sign, governed by the planet Uranus, is symbolized by the vivid blue color, signifying the eccentric and unpredictable nature of those born under these stars. These elegant earrings render the chromatic and figurative features of this sign. They are entirely crafted of 925 silver with a ruthenium plating that elegantly complements the hand-mounted sapphire adorning the center of the post. Each element of these earrings is a hexagon: the post boasting a stardust finish, and the three smaller ones forming the pendant (3 cm long) connected by a chain link.
