## ANTARTICOS COFFEE TABLE

\$6,850

### DESCRIPTION

Part of the collection Antarticos, this table is inspired by the water present in Antarctica, made up of melting ice, freshwater, and rocks, of mosses and lichens. It recalls that harsh but evocative land destination of explorers and scientists. Made of cedar solid wood with an iron foot, the product is handmade with epoxy resins and acrylic colors, stucco, and sand; the colors are not deliberately uniform to create shades. Any movements of the wood are part of the uniqueness of the piece.

### DETAILS & DIMENSIONS
