Micheluzzi Glass

GHIACCIO ACQUA VASE

\$1,320

DESCRIPTION

Ghiaccio – the Italian word for ice – is the effect produced by ‘Granzioli’, small glass fragments that resemble crushed ice. To create this special texture, a bed of Granzioli is applied to the main piece while it is still incandescent. The result is a thick and uneven layer of glass granules that envelops the surface of the vase. To highlight the contrast, a portion of the vase is left uncovered and smooth. This vase is handcrafted and signed.

DETAILS & DIMENSIONS

- Material: Glass
- Dimensions (in): W 4.72 x D 4.72 x H 6.30
- Dimensions (cm): W 12 x D 12 x H 16
- Handmade In Italy
