CLOUD N.1 SCULPTURAL FLOOR LAMP

\$29,305

DESCRIPTION

Breathtaking in its ethereal design, this one-of-a-kind, handmade floor lamp borrows its name from one of the cloud and rain nymphs from Greek mythology. Water and ephemerality are captured in its sleek silhouette recalling a steam cloud, where the upper section is comprised of ultra-thin, indented paper-porcelain flakes with a bisque finish caressed by the light and held together by a white cotton thread. The white-lacquered iron structure completes the design.
