ARCH COFFEE TABLE

\$970

DESCRIPTION

Part of the Arch collection designed in 2014 by Front, this eclectic piece boasts three slanted legs supporting a round top. The base is made of beechwood that was bent using steam (a staple of Viennese bentwood furniture techniques) to create the sinuous design of the legs. The wooden top is also available in glass, both framed by a piece of bent beechwood to create a cohesive look. This piece can be customized with a black finish.
