Griffe Montenapoleone by Vetrerie di Empoli

ARLECCHINO CUP

\$250

DESCRIPTION

This splendid object entirely made in glass is part of the Arlecchino collection and can be paired with other cups of different sizes and heights to create a charming set of centerpieces. Either combined with others or alone, this cup will make an elegant statement and can be used as fruit bowl, or pastry stand, or to hold pot-pourri. The amber-colored body rests on a delicate red stem supported by a pale blue base. All the colors were hand applied as were the pure gold decorations.
