\$405

#### DESCRIPTION

This magnificent box will make a statement in any room it will be placed, thanks to its delicate hand-applied colors and the exquisite craftsmanship used to create it. This piece is made entirely in glass in the shape of an egg and it comprises the bottom, that rests on a tiny pedestal-like base and stem, and a top that fits in it. The pale blue and soft pink of the egg complement the blue and red of the base and are enriched by pure gold accents.
