ARLECCHINO LARGE POTICHE VASE

\$1,135

DESCRIPTION

Part of the Arlecchino collection, this splendid vase has the distinctive potiche shape, with its separate cover and a rounded body with nearly vertical sides and a rounded shoulder. It rests on a simple short stem with a round base and its classically-inspired silhouette is made entirely in mouth-blown glass that was hand painted in four vivid colors: red and amber for the lid, and blue and pale blue for the body and base. Precious pure gold details add a luxurious touch to the piece.
