ARMCHAIR WITH DARK WALNUT WOOD FINISH

\$2,990

DESCRIPTION

This charming armchair was made entirely in solid walnut wood with a dark finish and will complement a classic decor, either if used at the dining table, as an accent chair in the entryway or living room, or as a desk chair in the study. The straight legs strikingly contrast with the exquisite curves of the two armrests. The seat and backrest cushions are upholstered with fabric whose white color contrasts with the dark stain of the wood and highlights its silhouette.
