ARMILLA MIRROR

\$1,505

DESCRIPTION

Inspired by the characteristic bronze cult ring typical of the ancient Picenum civilization, our mirror Armilla is a totemic object that brings with it the historical values, recovers the memory, interprets it and returns it in a piece of furniture, the work of skilled craftsmen. Made of green Guatemala marble mounted on iron, it is the result of the encounter between design and territorial culture. The green tones of the marble as well as the use of the iron want to be a testimony of the time.
