ART DECO ARMCHAIR

\$3,180

DESCRIPTION

This charming armchair is part of the Art Deco collection. The structure in beechwood features striking armrests that were curved using steam and it is completed by jute straps, iron double-cone-shaped springs, vegetable fibers, and cotton wadding. The upholstery is in cotton satin with half-moon jacquard motifs in an elegant absinthe green. Due to the handcrafted nature of this piece, small imperfections are to be expected.
