ART DECO HALABALA BLUE ARMCHAIR

\$4,795

DESCRIPTION

This superb armchair will add a striking accent to any living room, thanks to its carefully handcrafted manufacturing and the use of natural, long-lasting materials. The exquisite armrests in solid beechwood were bent with steam to create their sinuous curves and become part of the base. The structure uses jute straps, cotton wadding, vegetable fiber, and iron springs while the elegant upholstery is in fire-resistant velvet with geometric decorations in the art deco style.
