ARTEMISIA PENCIL IN BUBINGA WOOD

\$190

DESCRIPTION

This elegant pencil is made of bubinga wood, a magnificent highly resistant African wood that features red and brown colors with striking purple veins. The chromed metal accents enhance the shape of the piece that can be hand-engraved to add a customized detail. Because each piece is handmade, it can slightly differ from the photo. The lead is 2mm and it's perfect both for writing and drawing.
