## ARTEMISIA PENCIL IN MAKASSAR EBONY WOOD

\$190

### DESCRIPTION

This elegant pencil is made of Makassar ebony, a valued and rare type of ebony wood whose characteristic black color can feature white, yellow or red veins. The 2mm lead makes this object perfect for writing or drawing and the chromed metal finishes add modern accents to the pencil that can be hand-engraved upon request. Because each piece is handmade, it can slightly differ from the photo.
