ARTEMISIA PENCIL IN PADOUK WOOD

\$190

DESCRIPTION

This striking pencil is in padouk, a magnificent wood from West Africa that features a vivid coral-red hue that in time acquires dark orange nuances. This pencil is handmade and holds a 2mm lead, making it ideal both for drawing and writing. The chromed metal accents can be hand-engraved to add a customized detail. Because each piece is handmade, it can slightly differ from the photo.
