LIGHTING : TABLE LAMPS

Fuda Marmi by Atelier Design Lab

ARTEMISIA TABLE LAMP

\$1,970

DESCRIPTION

This striking table lamp was designed by Joe Gentile and Fabio Crippa of Studio ADL. The minimalist lines of the piece use the circle as main element, for both base and shade. The sinuous silhouette of the frame envelops the LED light and is made entirely of precious Carrara marble, making this lamp a sophisticated addition to a living room, entryway, or study. It is possible to craft this piece of black Marquina marble - please ask the concierge for variations in price with changes.
