### ASH WOOD TABLE

\$9,520

#### DESCRIPTION

An authentic piece of art, this superb table features an extra-large rectangular top from the trunk of an ash tree estimated to be 180-200 years old, from the woods owned by the Principality of Liechtenstein. The dark veins near the heart of the tree recall those of the olive tree, whose graceful pattern gives elegance to the imposing size of the top finished with transparent water-based paint. Two rectangular iron legs showcase this one-of-a-kind piece that will make a statement in any interior, both as a dining and conference table.
