ASMARA WHITE SIDEBOARD

\$12,740

DESCRIPTION

Timeless and sophisticated, this sideboard will add a bright decorative accent and precious storage space into a modern home. Its structure was crafted of wood with a visible base in solid wood that is also present in the profiles of the four doors. The black lacquer on these details strikingly contrasts with the white lacquer of the rest of the piece (also available with a matte or polished lacquered wood cover). The handles are in bronzed metal to continue the refined black and white color block combination.
