LIGHTING : SCONCES & WALL LAMPS

Lumis

ATLAS SCONCE

\$1,690

DESCRIPTION

This three-light sconce is attached to the wall thanks to a round base and three elements in bronzed brass on which the three brass shafts with the same finish are connected, allowing them to be moved to redirect the light where necessary. The triangular shades are in metal with a black varnish, adding a striking contrast both to the warmth of the brass and to the light coming from them.
