AURUM ARGENTUM SET OF TWO VASES

\$1,970

DESCRIPTION

Traditional handcrafting and sculptural allure come together in this Murano glass vase set. Entirely handmade, the silver and gold foils are introduced into the cooling glass to create a lustrous and highly reflective glass surface that exudes a sophisticated, neoclassical aesthetic. The gold vase (26 cm) boasts a tall and squared silhouette with rounded edges while the silver vase (20 cm) has a bulb-shaped silhouette, each tapering to a wide and pronounced mouth reminiscent of ancient Greek pottery. This decorative vase set will add a distinctive accent to a classic or modern decor.
